BEFORE AND AFTER

TRANSFORMATIONS THAT INSPIRE

This before and after is sure to inspire how to elevate even a smaller space. The designer meticulously laid out every detail, choosing Gunther Door Style from Diamond Cabinets – an elevated inset door. Finishes were beautifully combined for a multi-toned look, aligning with the trend of warm, natural tones in the kitchen. The three finishes included Natural Oak and Retreat and Agreeable Gray from Sherwin Williams®.

Diamond®

Make your mark.™

E EDGE™ SERIES

Diamond® Cabinetry offers three series to meet a variety of design needs. The Diamond Edge™ Series delivers more options to allow for an elevated and highly personalized design. With a full spectrum of finishing options, you and your designer will create a space that reflects your unique, personal style.

Also available from Diamond:

V VIBE™ SERIES

A great entryway into Diamond® Cabinetry, the Vibe™ Series offers all the essentials to create a beautiful design.

D DISTINCTION™ SERIES

When your project calls for additional nuance - like storage, organizational features and additional touches that are uniquely you - step up to Distinction™ Series.

+ DESIGNER TIP

Finish selections should never be made from a printed brochure or website. Please contact a local dealer in your area to visit their showroom and view a door sample or kitchen display in the door style, material species and finish color that you are interested in purchasing. This will ensure the best match of expectations with actual results.

READY, SET, STYLE.

Selecting a drawer and door style is a great place to get started. From a straight-forward Shaker to an intricately detailed design style, Diamond® Edge™ has what you need.

THINGS TO CONSIDER WHEN SHOPPING STYLES:

Select the one that aligns with your vision.

Clean, smooth **slab drawer fronts.**

Detailed, **five-piece drawer fronts.**

Full overlay drawer and door fronts deliver seamless coverage of cabinet fronts.

Inset allows for each drawer and door to stand out on its own while being flush with the cabinet front.

Finial Hinges bring hardware to the forefront and add an extra touch of detail to the design.

DESIGNER TIP

Prior to making a final decision, be sure to view the finish you select in your home in the lighting that your cabinets will experience and at different times of day. This will ensure you make a confident choice.

DESIGNER TIP

Choosing inset cabinets can provide a timeless touch to a kitchen, no matter when the house was constructed.

ALUMINUM FRAME DOORS

Aluminum Frame Doors are yet another way to add interest to your design. Often chosen as doors for select wall cabinets, these options add character and design detail to the overall look. Selecting a see-through glass for the frame can create a showcase for your favorite pieces.

FRAME STYLES

AF003

DESIGNER TIP

Aluminum frame doors and their inserts are an accent with a style continuum that starts at understated and accelerates to standout. Team a darker frame with dark paints and stains for subtle style. For "look at me" impactful style, choose a frame that contrasts with your cabinet finish.

FINISH OPTIONS

COLOR BY NUMBER

Bring your creative vision to life with the Diamond™ Color by Number Program.

Includes any color in the Sherwin-Williams® and Benjamin Moore® paint families. Color by Number gives you thousands of choices to create your unique space.

DESIGNER TIP

92% of designers agree clients want more colors in cabinetry to make their space their own.*

LIMITLESS COLOR

With more than 2000 paint colors available from the Sherwin-Williams and Benjamin Moore color palettes to enhance your Maple, MDF or Quartersawn Oak door style, you'll be sure to find a color that is beyond ordinary. Layer a Penned Glaze or Brushed Finish for a true artistic interpretation. Please see your designer for details and exclusions.

PAINTS*

Available on Maple, MDF and Quartersawn Oak. See designer for exclusions.

PAINTS*

*When Maple painted finishes (Paints, Sherwin-Williams or Brushed Technique) are specified, the center panels of the selected style may be constructed of Medium Density Fiberboard (MDF). MDF provides a smoother finish when painted, and is more resistant to warping, expansion, and contraction.

DESIGNER TIP

You can intentionally choose hardware to be the jewelry of your design and stand out, or choose hardware that contrasts slightly with your cabinet finish to create visual interest without overwhelming the design. For a timeless look, pair dark-toned cabinets with brushed nickel or matte black hardware, and light-toned cabinets with warm metals like copper or brass.

Shown: Gunther Maple Regatta Paint, Edge™ Series

PENNEDED GLAZES FOR PAINTS*

Glazes are another way to make your design uniquely yours and add character and depth to your cabinet design. Choose Penned Glaze for a concentrated glaze detail in the crevices of the cabinet drawer and door fronts.

**Glaze name change to Charcoal in Fall 2025

BRUSHED FINISHES FOR PAINTS*

Diamond® Edge™ offers three hand-applied, luxuriously translucent finishes to layer over any Maple or MDF paint. Choose to pair these brushed finishes with paints from our Edge collection or the full Sherwin-Williams® palette for a personalized look that accentuates the fine craftsmanship found in every Edge cabinet.

STAINS

JUST THE RIGHT FINISH.

Kitchen and bath cabinets are largely about the finish. A stain-finished cabinet can add extra texture and character to a design. Stain affords an opportunity to spotlight the selected wood species by showcasing the grain and other features of that wood. Stained cabinets also tend to be easier to touch up over time which can make them a good choice for heavily used rooms in the home.

DESIGNER TIP

When choosing a lighter stain, be aware that it will show more of a wood species' character than a darker stain. If that's not your design objective, consider a wood species with a more subtle grain or fewer variations, or choose a darker stain that will mask some of the wood's distinctive features.

MIX AND MATCH.

Cabinet color mixing is trending. Most commonly, homeowners are choosing a contrasting island color but there are options beyond that. One of these options is to use a unique finish for a specific section of cabinetry to allow it to stand out. Consider this for a coffee station or pantry portion of your kitchen.

Here are some of our favorite paint and stain pairings.

Retreat Paint & Kanga Stain

Black Paint & Morel Stain

Cloud Paint & Coastline Stain

DESIGNER TIP

Cerusing wood is a centuries-old technique used to add interest to wood finish. Especially popular during the Art Deco era, cerusing has regained popularity by offering low-key sophistication to an array of styles, from old world charm to modern farmhouse to classic traditional and beyond.

SHEEN

AGING TECHNIQUES

EXTRA HEWN

This more aggressive technique features burnished sand-through on corners and raised profiles along with sanding on sharp profiles to expose underlying wood. Unlike Vintage, Vintage Plus is a random sand-through technique varying the number of corners and raised profiles receiving burnished sand-through and the sanding of sharp profiles. As with normal aging, the worn edges will vary within individual doors and throughout the entire room.

Shown: Shona Extra Timeworn Maple Morel Stain

MATTE SHEEN

(Top portion of door)

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains, glazed stains, paints and glazed paints.

Shown: Davis Extra Hewn Maple Foxhall Green Paint, Edge™ Series

SATIN SHEEN

(Lower portion of door)

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

DESIGNER TIP

With so many options to choose - paint, stain, glaze, sheen and aging techniques - decision-making can feel overwhelming. Know that you are in good hands - your designer will help you select the best options for your desired look.

EXTRA TIMEWORN

This more aggressive technique includes random rasped corners and edges, wormholes, mars, splits, gouges, small dings and dents for an authentically worn look.

Shown: Shona Maple Maritime Paint, Maple North Star Paint, Cherry Boulder Stain and Cherry Seal Stain
