WELCOME

to the

DIAMOND® DESIGN GUIDE.

Full of tips and inspiration, this design guide is your go-to companion during the exciting and, yes, sometimes overwhelming process that is a home remodel. Browse the styles and finishes, organizational "sanity helpers," and attention-grabbing wood hoods, and be reassured by the designer notes along the way.

Diamond's powerful portfolio of cabinetry options will propel your vision of home from magazine clippings and Pinterest boards to a dream realized. You can count on Diamond — and on us — to deliver what will surely be your new favorite room.

Cheers to a beautiful home!

JOE DECASPERIS

Diamond Designer

Tell me a little about yourself. Where are you from, family, hobbies, how long have you been a designer?

Hi! I am Joseph DeCasperis, owner of THE Kitchen & Home. Originally from NYC, I now live in Southern California with my goldendoodle, Hudson.

I jumped into the kitchen and bath design industry while I was in college, studying public relations and advertising. Halfway into my freshman year, I bought a home, renovating it from top to bottom. After remodeling the kitchen, I asked for an internship with the cabinet shop I worked with. Three years later, I launched my own company, and have had the privilege of renovating countless homes and designing new builds from the ground up.

I was honored as a Thirty Under 30 by the NKBA in 2020 and serve as the chapter president for the NKBA Southern California Chapter.

What are some of your favorite features of Diamond Cabinetry?

Diamond is an incredibly versatile cabinetry line. I love the ability to customize with free modifications, such as flush toe kick

and extended stiles. We're known for our fit-and-finish, and Diamond cabinetry allows us to provide premium details at a cost friendly price point. We also love the Color By Number program, rustic alder, availability of moldings, etc.

What inspired the overall design concept for this kitchen?

Cyndi wanted a contemporary feel with old-world charm. We accomplished that with soft, painted cabinetry, a marble-inspired countertop, and a rustic brick backsplash. A design detail we aimed for was the notion of "no upper cabinetry," a look loved by many but sometimes not practical. We solved that with towers flanking either side of the range, with an integrated stone shelf.

How did you balance functionality and aesthetics in this design?

We maintained balance in the overall design, while also integrating storage solutions, such as the hidden drawer in a two-drawer bank, a blind corner pullout, and drawers wherever possible. We hinged the towers to be two right hinged doors for easy accessibility, which created symmetry with the left tower.

DESIGNER SPOTLIGHT

How did you incorporate the client's personal style and preferences into the design?

The homeowner loved the modern farmhouse style after moving from a new build to this fixer upper. To avoid dating her home, we integrated key elements into the overall design. We chose shaker door cabinetry for its versatility and added metal finishes with gunmetal hardware and a custom hood. The brick backsplash softened the entire home, making it warm and inviting.

What feedback did you receive from the clients after the project was completed?

We received the best feedback of all! The client has invited us back to renovate more of their home. We also have had the opportunity to design and renovate their next door neighbors kitchen.

How do you stay updated with the latest design trends and technologies?

I enjoy exploring new trends at KBIS in Las Vegas, staying connected with design peers on social media, and attending product launches in Southern California. I then share these insights with my team and trades to enhance our client experience.

READY, SET, STYLE.

Selecting a drawer and door style is a great place to get started. From a straightforward Shaker to an intricately detailed design style, Diamond® has what you need.

THINGS TO CONSIDER WHEN SHOPPING STYLES:

Select the one that aligns with your vision.

Clean, smooth slab drawer fronts.

Detailed, five-piece drawer fronts.

Full overlay drawer and door fronts will deliver seamless coverage of cabinet fronts.

Partial overlay allows each drawer and door to stand out on its own.

Cherry, maple, oak and more. The wood species you choose will affect the way your chosen wood stain or paint reads on the wood color and grain. With so many combinations to choose from, your designer can help further guide.

DESIGNER TIP:

Does your design call for modern and minimal? Specialty laminate may be for you. See these sleek styles on page 24.

DESIGNER TIP:

Prior to making a final decision, be sure to view the finish you select in your home in the lighting that your cabinets will experience and at different times of day. This will ensure you make a confident choice.

FINISH OPTIONS

JUST THE RIGHT FINISH.

Stark white is out, and warm finishes are in. Think cozy, soft, and natural. Rooms wrapped in the warmth of wood tones and creamy warm whites, like accessible beige, are highly sought after.

Looking for the perfect tone to add warmth to your space? Collaborate with your designer to discover the ideal warm Diamond® finish.

CUE THE COLOR.

Looking beyond white? You can go bold or add classic neutrals to define your design. Or opt for a dynamic two-tone design to create dimension. The two-tone concept can be done with two paint finishes or a paint and a stain.

These are some of our favorite finish combinations to inspire you!

SHEEN

HEIRLOOMING

Finishing techniques are a great way to give your cabinets a unique look. Heirlooming adds dimension and interest to your cabinets.

Over-sanded edges and profiles expose the underlying wood to create a naturally aged appearance, lending depth and character.

MATTE SHEEN*

(Top portion of door)

Our low sheen top coat is less reflective and absorbs more light, resulting in a softer, more muted look. Available on all stains and glazed stains. Not available on paints or glazed paints.

* Matte is only available in Distinction™ Series

SATIN SHEEN

(Lower portion of door)

Our timeless original top coat features a moderate sheen which is reflective without being too glossy. Available on all stains, glazed stains, paints and glazed paints.

Shown Top: Hoyt Maple Buckskin Stain, Satin Sheen.

Shown Left: Bryant Maple Thatch, Seal, Buckskin and Coastline Stain

DESIGNER TIP:

Accessorize your cabinetry with personal touches like these furniture-inspired feet. See more accessory options on page 30.

PURESTYLE™

Vibe™ Series

Diamond® Vibe Series offers PureStyle for those looking for the beauty of a paint finish with added durability.

The PureStyle wrapped door and drawer front design solution delivers crisp, clean details and a durable, paint-like finish. The added benefits of color consistency paired with the resistance to scratching, fading, and surface water mean PureStyle delivers fashion without the fuss.

CLEANS BEAUTIFULLY.

A clean cloth dampened with a solution of 5% dish soap and 95% water is all it takes to clean PureStyle cabinetry. Dry with a clean, soft cloth.
